

# SOLID PASSAGE DOOR

**Measure:** 900 x 2130

**Overall thickness:** 36 mm

Tubular board core

Reduced tube diameter

Fire protection: 30 min

Acoustic insulation: 30 db

Weather protection: climate b (See technical sheet)

Solid wood perimeter frame

3 mm water-repellent HDF laminate (color to choose)

The whole set glued and pressed with polyurethane glue with a pressure of 100 kg/cm<sup>2</sup> (See technical sheet)

## Frame

Made of water-repellent medium density fiber, squared and shaped in an automatic molding machine with 6 heads. Covered in high pressure laminate of 0.8 tenths.

## Cover gaskets

Made of water-repellent medium density fiber, squared and shaped in an automatic molding machine with 6 heads. Covered in high pressure laminate of 0.8 tenths.

## Ironwork

Stainless steel handle  
3" stainless steel hinge
